There is nothing in FAR 52.233-3 that states the stop work order is limited to 90 days. Moreover, this clause specifically states that the "Contractor shall immediately comply with [the stop work order's] terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stop-page." Thus, if this award is canceled, your firm will not be reimbursed for any work done after the SWO was issued and is solely at your own risk. Moreover, this email should serve as confirmation that the stop work order is still in place and you will be notified of DLA's final decision regarding the protest as soon as possible.

Importance: High

Good Morning [REDACTED],

The stop work order was received on 24 February 2021. The way we interpret the FAR reference, after 90 days following a stop work without a termination for convenience, we're entitled to resume work under the contract. Can you please confirm? Kindly call if you have any questions.

Sincerely,
